

Handwriting Analysis: Your Rapid Personality Profile

"Insightful Entertainment"

To understand other people is difficult: to understand ourselves is almost impossible! An analysis of your handwriting will give you a better understanding of your personality traits, honestly and effectively in a non-intrusive way. After all, there are things that you can learn from an analysis that your best friend would never dream of telling you!

Please use the space below to provide your handwritten sample (sorry – no printing!) Write your sample on a hard surface with a ball point pen.

Submit the following sentences below:

- **A quick explanation of why you would like to have your writing analyzed.** (*content is irrelevant*)

If you cannot think what to write – use these two sentences in your sample:

- Take that silly monkey of yours back to the zoo.
- The Quick Brown Fox chased Tommy over the hedge.

Put your signature at the bottom of the sample - your usual signature (e.g. for cheques).

The rapid handwriting analysis service we are providing today is for entertainment purposes only. Contact us for more information on a formal analysis.
