

## ARE YOUR SHOWS SAFE?

Absolutely. Safety is my number one priority. My ethics and integrity would simply not allow me to present a show that was anything but safe for everyone involved.

I never perform dangerous stunts such as the human bridge, which is dramatic, but also dangerous and I will bring or insist on volunteers at the event to help me keep participants safe at every turn.

Hypnosis is no more dangerous than any other physical event. Think of it as an improv show with your guests as the rock stars!

## IS THE SHOW FAMILY FRIENDLY?

Yes it is! Faith keeps it clean and fun for everyone! No shame, no embarrassment – no one going home at the end of the night saying “I will never do that again!”

The goal of every show is to hi-light the awe-inspiring power of the human mind – free from insecurity and filled with fun and astonishing acts of brilliance!

## DO YOU HAVE SPECIFIC TECHNICAL REQUIREMENTS OR STAGE SET UP NEEDS?

Yes, we sure do and we have provided a fabulous pdf that outlines all the things you will need to know to get ready for a great show. [Check out the technical needs sheet by clicking here.](#)

When travelling by car, we are self contained and will bring everything. In the event of a flight, you will need to rent specific equipment for us. [We share all those items with you in this pdf.](#)

## WHAT IS THE COST TO BRING YOUR SHOW TO OUR GUESTS?

Posting a flat fee for this is somewhat challenging. A lot depends on location of the event, number of guests, if the show is an add-on to a speaking engagement that you have already hired me for, etc.

From weddings and Grads to conferences to the Galas and sporting events, (and many points in between) we have done it! We will quote you a great price that includes the Hypnotist and her sound guy (aka tech support) once we know all the variables.

FYI: Faith's sound guy is her husband so only one hotel room and no additional entertainer fees!
